

IMPORT INSTRUCTIONS

Right click on tables > import data

Choose File > Next

Enter Youtube as table name > next > next

Data Import Wizard - Step 2 of 4

Data Preview

Import Method

Column Definition

Finish

Specify the method for importing data. For External Table method, an external table will be created to read the data in the file. For Staging External Table method, an external table will be created as a staging table for importing the target table. For other methods, a new table is created and the data is imported.

Import Method:

Insert

☐ Send Create Script to SQL Worksheet

Table Name:

youtube

☐ Import Row Limit:

100
